

EscapeSF Sanitation & Safety Policies

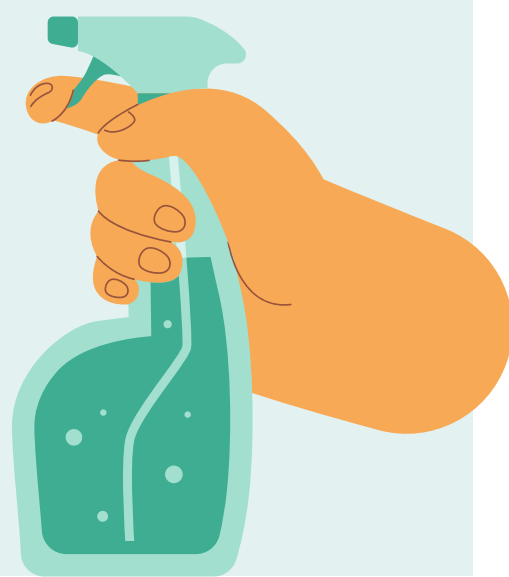

Having the safest entertainment experience anywhere is extremely important to us.

Here's what we are doing to give our guests the safest possible experience.

Disinfecting Between Each and Every Game.

We disinfect between each and every **game** as well as common areas like our lobby and stairs between every cycle of games.

We are taking these precautions to ensure the environments you come into contact with are as **safe as possible**.

All Private Adventures.

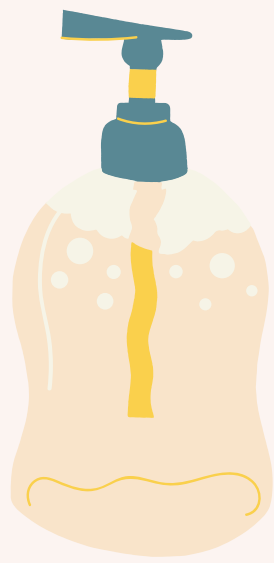

All of our experience have **always been private**. This means the friends and family you bring with you will be the only ones in the game room.

We will **never pair you with strangers**. Your Game Master will communicate with you through microphones in the room.

Hand Sanitizer Available.

We've **always had hand sanitizer available** for your use and we will continue to have it for you.

Contactless Check-In.

Our waivers are available online so you **don't need to touch screens** or make contact with our team members using check-in.

You can fill them out on any personal computer, smart phone, or tablet!

Distancing in Common Areas

Only one group at the time will be allowed to enter and exit our lobby.

When you arrive, **please wait outside** and we will call or text you **when it's time for you to enter the lobby**.

Our Team.

Our Game Masters will be distancing themselves from you by at least **6 feet at all times**.

We will also be **wearing face coverings**.

Do Your Part

We ask that all guests **wash their hands** both before and after their adventure.

We ask that guests **wear masks** while they are in our common areas like our lobby. We recommend keeping it on once you're in your adventure.

If you or someone in your group isn't feeling well, please, do not hesitate to **reschedule free of charge**.
